

IN CV PARTS WE LIKE TO THINK BIG.

TENSION ROLLERS, STEERING PARTS AND WATER PUMPS FOR COMMERCIAL VEHICLES.

It is often the little things that set the wheels turning – with commercial vehicles there is no difference. Tension rollers, water pumps and steering components must operate with utmost precision, hallmarked by OE quality, long service life and maximum efficiency. And this is why we have designed our products to perform to their best on every leading CV make and model – right down to the very last bolt and nut.
